

**RNB7 – Third Circular**

**THE SEVENTH INTERNATIONAL CONFERENCE ON  
RADIOACTIVE NUCLEAR BEAMS (RNB7)**

**July 3-7, 2006  
Cortina d'Ampezzo, Italy**

This is the third circular of the International Conference on Radioactive Nuclear Beams (RNB7), to be held in Cortina d'Ampezzo on July 3-7, 2006. RNB7 is the seventh of this series (the last one held at Argonne) and provides an international forum for presenting and discussing the continuous development of the physics and of the technology associated with radioactive nuclear beams.

The selection of oral presentations from the about 180 abstracts received has been completed and the preliminary program is now available on the web site of the conference <http://rnb7.pd.infn.it>. On the same web site you will find also all the submitted abstracts.

The Conference will start on Monday, July 3 at 9.00 and will end on Friday, July 7 at 16.30. A registration desk will be opened at the conference site (PalaVolkswagen) on Sunday, July 2, from 17.00 followed by a welcome cocktail. All important information regarding the conference (travel information, registration, accommodation, contributions and proceedings, poster session, etc.) can be found at the updated web page of the conference <http://rnb7.pd.infn.it>.

We are happy to inform that, during the conference, the Lise Meitner Prize 2006 for Nuclear Science of the European Physical Society will be awarded to two distinguished nuclear physicists.

Hoping to see you soon in Cortina!

With best regards

The Organizing Committee
